

# Workshop - Imaging the visual system

We invite researchers and clinicians with interests in the visual system to a joint **workshop**, including lectures and lab visits! Specific focus is on injury-invoked alterations and plasticity. Participants are invited to bring clinical cases!

Topics include: Neuroradiology and electrophysiology of the visual system; Measurements of visual fields and receptive fields; Imaging the structure of the retina; Evaluation of higher visual functions; Visual functioning in individuals with early brain injury

Keynote speaker: Prof. Serge Dumoulin from the Spinoza Centre for Neuroimaging in Amsterdam

Location: **Skåne University Hospital Lund**

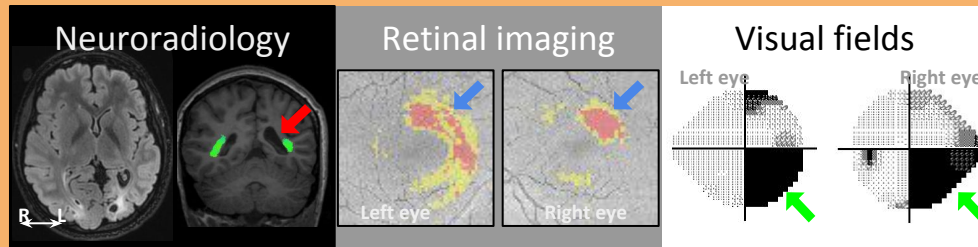

Date: **Monday 18 November**

Time: **8:45 - 16:00**

Register to [finn.lennartsson@med.lu.se](mailto:finn.lennartsson@med.lu.se) no later than 11 November
