

## Research

### Postdoctoral fellow in Bioinformatics | PhD in Molecular Biology

After my PhD in molecular biology applied to cutaneous melanoma, performed at Curie Institute, I have completed a Master in bioinformatics at University of Rouen. Thus, I have now dual knowledge in molecular biology and bioinformatics. I am currently working as a postdoctoral bioinformatician in Kristian Pietras' group, at Lund University, to study the heterogeneity of cancer-associated fibroblasts in pancreatic ductal adenocarcinoma.

## Qualifications

Genetics, Master 2  
2015 Sept → 2016 Jun  
Award Date: 2016 Jun 30

Cancerology, Master 1  
2013 Sept → 2014 Jun  
Award Date: 2014 Jun 30

Biology, Bachelor, Genetics & Cell biology  
2010 Sept → 2013 Jun  
Award Date: 2013 Jun 30

## Employment

### Postdoctoral fellow

Experimental oncology  
Lund University  
Sweden  
2021 Oct 26 → present

### Teaching Assistant

Versailles Saint-Quentin-en-Yvelines University  
Versailles, France  
2017 Oct 1 → 2018 Dec 1

### PhD student

Curie Institute, Paris  
Paris, France  
2016 Oct 1 → 2020 Sept 30

### Research intern

Curie Institute, Paris  
Paris, France  
2015 Nov 1 → 2016 Jun 1

### Research intern

Paris-Sorbonne University  
Paris, France  
2014 Jun 1 → 2014 Aug 1

### Research intern

Versailles Saint-Quentin-en-Yvelines University  
Versailles, France  
2013 May 1 → 2013 Jul 1

### Research intern

INRA National Institute of Agricultural Research  
Paris, France  
2012 May 1 → 2012 Jul 1
